

The Museum of Flight Costume Policy for 21+ Events

The Museum of Flight's Costume Policy provides guidelines for staff, volunteers, Museum guests, individuals and groups who wear a costume as part of a 21+ Museum event.

The goal of the Costume Policy is to ensure that costumes worn on Museum property are safe and provide a positive experience for all.

The following guidelines apply to costumes worn on Museum property during a 21+ event:

1. Must fit through a standard doorway (under 85.5" tall x 35" wide).
2. No pyrotechnics, fire, smoke, steam, fog, helium balloons, or loose glitter.
3. No nudity or exposure of private body parts.
4. Full-face masks are not allowed; eye-covering masquerade masks are okay.
5. No real or replica weapons allowed—except replica swords that are securely attached and can't be drawn. All costume weapons are subject to inspection—refusal may result in removal from the event.
6. Photo ID may be required for costumes that conceal the face.

The Museum of Flight reserves the right to refuse entrance to the Museum if the costume is deemed inappropriate or distracting, as determined by The Museum of Flight staff.

Thank You.
